Public Sector Solutions

As an organization in the public sector, your mission is to serve the public. As an technology service provider, HTS understands how crucial it is for your technology infrastructure to perform efficiently and flawlessly at all times, so that you can focus on providing quality services to the community. Our technology solutions are designed to suit the specific needs of public sector organizations like yours.

Is your organization one of the following?

» School
» Municipality
» Library
» Police or sheriff department
» Fire department
» Recreational organization
» Nonprofit company

If so, our experts can help design and implement technology solutions that fit your requirements without exceeding your limited budget. We offer all of our standard services to your public sector organization, including:

» Network design, implementation, and ongoing maintenance
» Server installation and proactive monitoring
» Hosted VoIP phone systems
» Data backup and disaster recovery planning
» Remote access solutions
» Phone systems
» Communication services
» ...and so much more!

We take a team-based approach to our work, bringing years of experience and expertise to the table in order to identify the ideal technology solutions that enable you to overcome your organization's challenges.
