Video Surveillance

## Video Surveillance

HTS offers CCTV, as well as a hosted solution, for video surveillance and employee safety monitoring. We deliver great quality, real-time and archived video directly to your browser, wherever you are.

- IP cameras
- Tamper proof offsite storage
- Email snapshots & video clips for immediate viewing

## Door Access

HTS provides sales, installation, service and repair of commercial security systems in both the existing facility and new construction marketplace. Our security professionals work with architects, contractors, security managers, property and facility managers and business owners who actively promote security, safety and increased productivity.

- Electrified Door Hardware
- Automatic Doors
- Intercom Systems

Door Access

# HTS – COVERS ALL THE BASES!

Alarm Systems

## Alarm Systems

HTS monitoring centers help protect what you value most 24 hours a day, 7 days a week. Trained professionals are watching your business and ready to contact the appropriate emergency agencies if necessary. In the event your phone line is compromised, HTS offers cellular backup service.

- Flexible call management plans
- Customized reporting
- Extensive device monitoring
- Monitored hosted video available
